### ***Notice to Cure***

Dear Mr. Hagan:

In accordance with the terms of the Arizona Physicians IPA (APIPA) Contract with the Arizona Health Care Cost Containment System (AHCCCS), failure to meet Performance Standards specified in the Contract (Section D-24, Performance Standards) may result in AHCCCS enforcement of the terms by any and all means established in the Contract (Sections D-24 and D-72, Sanctions).

In July 2007, APIPA was advised that, if it failed to meet the Minimum Performance Standard (MPS) for any Performance Measure related to clinical quality based on the measurement period of CYE 2007, AHCCCS may impose a sanction in the amount of \$100,000 for each measure for which the Contractor's rate was below the MPS. AHCCCS also advised APIPA that it would pend any sanction(s) from the CYE 2007 measurement period until results for the measurement period of CYE 2008 are reported in 2009.

**Due to the circumstances described below, APIPA is hereby issued a Notice to Cure.**

APIPA has failed to meet Minimum Performance Standards for the following Clinical Quality Performance Measures for the Medicaid population, based on the measurement period of CYE 2007:

- Well Child Visits in the First 15 Months of Life
- Children's and Adolescents' Access to Primary Care Practitioners (PCPs), 12 – 24 Months
- Children's and Adolescents' Access to PCPs, 25 Months – 6 Years
- Children's and Adolescents' Access to PCPs, 7 – 11 Years
- Children's and Adolescents' Access to PCPs, 12 – 19 Years
- Adolescent Well-Care Visits
- Timeliness of Prenatal Care
- Chlamydia Screening, 16 – 25 Years

The attached document shows all of APIPA's rates for Healthcare Effectiveness Data and Information Set (HEDIS) Performance Measures for the three most recent measurement periods, compared with the applicable Minimum Performance Standards. Future sanctions may be applied to measures of the Medicaid population for which the Contractor did not meet the MPS for the measurement period of CYE 2007, reported in 2008. For childhood immunization measures, a sanction may be applied only to the 4:3:1:3:3 series, rather than to measures of individual vaccines or other series.

APIPA  
Clinical Quality Performance Measures  
Notice to Cure

Page 2

In August 2007, APIPA was required to submit to AHCCCS a thorough evaluation of the corrective actions currently in place for measures for which it had not met the MPS, including Children's Access to PCPs, Breast Cancer Screening and Cervical Cancer Screening. **Using the same format, APIPA must resubmit its Corrective Action Plan (CAP) and Evaluation for Children's and Adolescents' Access to PCPs (by age group).** It should document the status of all CAP activities to date, any additional interventions implemented since August 2007, an evaluation of the effectiveness of all activities/interventions based on analysis of data and trends, and a determination as to whether the intervention will continue or be replaced with another intervention in order to improve the effectiveness of the CAP.

**APIPA also must submit new CAPs, in the required format, with an evaluation of all interventions currently in place to improve the following measures:**

- Well Child Visits in the First 15 Months of Life
- Adolescent Well-Care Visits
- Timeliness of Prenatal Care
- Chlamydia Screening, 16 – 25 Years

**All required Corrective Action Plans must be submitted to the AHCCCS Division of Health Care Management (DHCM), Clinical Quality Management (CQM) Unit, by February 27, 2009.**

**In addition, AHCCCS may impose a sanction in the amount of \$100,000 for each measure for which the Contractor's rate is below the MPS, based on the CYE 2007 measurement period, for a total sanction amount of \$800,000. AHCCCS may abate the sanctions, based on results for the measurement period of CYE 2008, which will be reported in 2009. If, at that time:**

- the Contractor has failed to meet the MPS for any measure for both years, AHCCCS will assess a sanction in the amount of \$200,000 per measure (\$100,000 per measure, per year).
- the Contractor did not meet the MPS for the measurement period of CYE 2007, but improves its rate for the measurement period of CYE 2008, AHCCCS will not impose a sanction for that measure.
- the Contractor met the MPS for the measurement period of CYE 2007, but fails to meet the minimum standard for the measurement period of CYE 2008, AHCCCS may impose a sanction in the amount of \$100,000 per measure.

If you have any questions about this matter, please contact Kim M. Elliott, PhD, CPHQ, Administrator, Clinical Quality Management, at (602) 417-4782.

Sincerely,

Michael Veit  
Contracts and Purchasing Administrator

cc: Monica Husband, Contract Compliance Officer, APIPA

Notes:

\* Programming of these measures for reporting in 2007 and 2008 was modified to better conform to HEDIS.

Rates for dental services for 2006 and 2007 are based on ages 4 to 21, while rates for 2008 are based on ages 2 to 21

Immunization rates reported in 2008 reflect less restrictive HEDIS criteria on timing of most antigens
